AJAYA KUMAR SAHOO

UI/UX Designer – Frontend Developer

+91 8917616027 sahooajayakas12345@gmail.com https://origin-os-sage.vercel.app/
Angul, Odisha, India

SUMMARY

I am a creative B.Tech Computer Science student passionate about UI/UX design and frontend development. Skilled in using Figma to create user-centered designs and translating these visuals into responsive interfaces. My experience includes independent design projects where I apply usability principles and coding to enhance user experiences

EXPERIENCE

UI/UX Designer

Self-Initiated Design Work

07/2023 Remote

Independent Projects

- Designed multiple UI screens, landing pages, and interactive prototypes for web and app-based concepts
- Improved design quality through self-conducted usability testing and iterative refinements
- Applied modern design trends and visual systems to create polished and engaging user experiences

EDUCATION

Bachelor of Technology (B.Tech)

Nalanda Institute of Technology

08/2023 Bhubaneswar, Odisha

Higher Secondary (+2 Science)

Vidyarthee Residential Higher Secondary School

07/2021 - 05/2023 Dhenkanal, Odisha

Matriculation (10th)

Utkalamani Gopabandhu Uchha Bidyapitha

06/2019 - 05/2021 Khamar, Odisha

KEY ACHIEVEMENTS

OriginOS UI Design

Developed OriginOS, a modern operating system-style web interface that combines user-centered design with functional frontend development. Successfully deployed the project for user access, showcasing my design and coding skills

SKILLS

Gmail, SAGE, Vercel, Figma, Adobe CC, Wireframing, IXD, HTML, JavaScript, ES6+, Git, GitHub, Visual Studio Code, CSS, Wireframes, Microsoft Office

PROJECTS

OriginOS UI Design

01/2023 - Present

A web interface project designed to enhance user experience with a modern aesthetic

- Designed a modern operating system-style web interface focused on smooth user experience and clean aesthetics
- Created wireframes, user flows, and high-fidelity prototypes in Figma to define the complete interaction experience
- Translated UI concepts into a functional frontend using HTML, CSS, and JavaScript
- Deployed the live project using Vercel for public access and presentation

PROJECTS

Personal UI/UX Portfolio

01/2023 - Present

A portfolio showcasing my design capabilities and projects in UI/UX

- Curated a collection of mobile and web interface concepts focused on accessibility, visual hierarchy, and clean layouts
- Applied practical design workflows including research, ideation, wireframing, prototyping, and visual refinement
- Explored real-world interface patterns and component-based design systems for modern product design
